TEPPOTSAVAM

OBJECTIVE:-

Every year during Phalguna Pournami, this festival is celebrated on a grand scale in the Swami Pushkarini for five days in the month of chaitra (March). On the first day, Lord Rama with Sita and Lakshmana is offered worship and taken out for a celestial ride on the finely decked float in Swamy Pushkarini.

On the second day, Lord Sri Krishna and Rukmini are offered puja and taken for pleasure ride on float. During the remaining three days beginning with Trayodasi and ending with Pournami, Sri Malayappa Swami along with Sridevi and Bhudevi are taken out for a ride in the temple tank.

On the third day, there will be three rounds followed by five rounds and on the final day, the utsava murtis will be taken out for pleasure ride on the impressively decorated float for seven rounds. The pilgrims throng to see the grandeur of the deities on this particular day since, the charm of full moon is an added attraction to the divine beauty of the deities.

We utilize the services of our NCC Cadets of TTD Educational Institutions at Tirumala who wish to do service voluntarily for Traffic Control and Social Service in Teppotsavam Event.
