

Slow learners

Students with varied degree of learning capabilities and diversified back ground get admission in the college. Therefore the level of challenge faced by them is also different. The college is empathetic to this aspect and takes maximum steps to optimize the learning outcomes of the students. In this direction the college has undertaken a proactive step of identifying slow learners and advanced learners.

Students who scored 40% or <40 marks in the university examinations are categorized as slow learners and those > 70% are advanced learners.
