OBJECTIVES OF FIELD VISIT (DST-PURSE CENTRE):

The Research objectives of the DST-PURSE Programme are being carried out in different areas of Physical and Biological Sciences in respective departments.

Major Research areas:

- Physical Sciences-Material research for the development of micro and nano devices.
- Biological Sciences – Biotic and Abiotic molecules and their health effects and therapeutic applications.
- Engineering Sciences-Metal, soil, structure investigations; scheduling, modelling, simulation of welding and advanced computing related to industry.

Outcomes of field visit:

- Expose students to new experiences and can increase interest and engagement in science regardless of prior interest in a topic
- Result in effective gains such as more positive feelings toward a topic
- Are experiences that can be recalled and useful long after a visit
- A shared social experience that provides the opportunity for students to encounter and explore novel things in an authentic setting.
