Sgs arts college Tirupati

To

The principal

Sgs arts college Tirupati

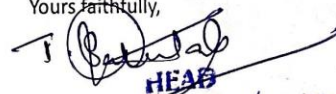

Respected sir,

Subject this is to bring for your kind information that the department of botany is planning to conduct a seminar on bio-fertilizer by the assistant professor of botany government degree college vedurukuppam

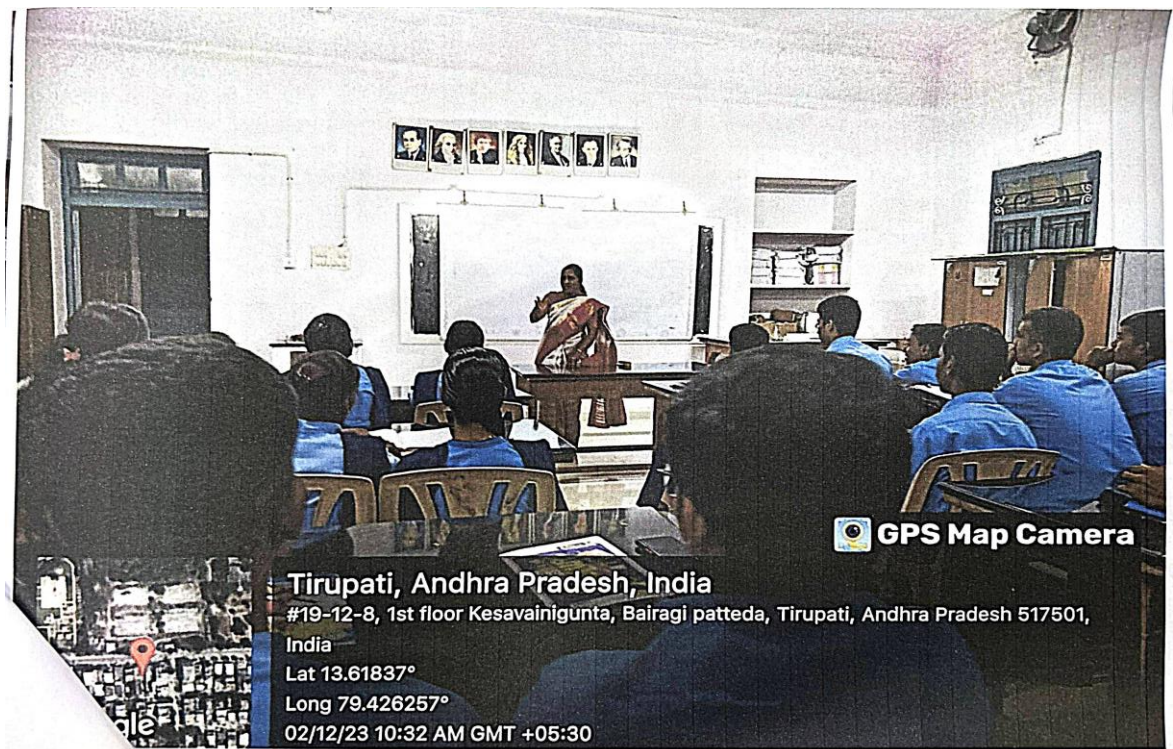

So kindly permit us to conduct the seminar on 02-12-2023

Thanking you sir,

Yours faithfully,

HEAD

Tirupati,

Date: 29-11-2023.

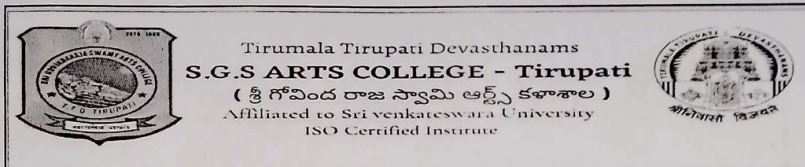

All the students of I ,II ,III year B.Sc Microbiology are informed to attend a Guest Lecture on the topic "MICROBIAL INTERACTIONS" by K.Ushasree MSC.PhD, Associate Professor, on 30-11-2023 in Room No:308.

To :-

All teaching staff and students.

K. Sridhar

HOD
HEAD
DEPT. OF MICROBIOLOGY
SGS ARTS COLLEGE
TIRUPATI-517501 (A.P.)

S.G.S. ARTS COLLEGE, TTD, TIRUPATI.

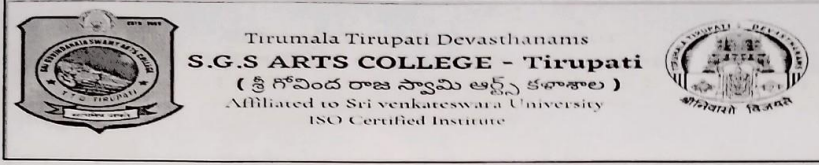

Department of Microbiology .

EVENT ORGANISED REPORT:2023-2024

1	Name of the Department	Microbiology
2	Name of Event Organized	Guest Lecture Seminar- K.Ushasree MSC.PhD, Associate Professor,
3	Title of Event Organized	Microbial interactions
4	Name of Co-ordinator of Event	Smt.Dr.k. Sridevi
5	Class of the Participants	B.Sc MZC
6	No. of Participants	51
7	Objective of the Event	Through the study of microbial individuals and interactions we can increase our understanding of the direct and indirect roles of specific members, predict how the community may respond to perturbations in the environment, and, perhaps, eventually engineer complex microbial communities for our benefit.
8	Outcome of the Event	Such unintended consequences result from interactions, the effect of one species on the growth and death of another. As this example illustrates, these interactions can lead to complex changes to the long-term composition of the community and its stability in response to perturbations.

FEED BACK :-

Students get knowledge from this Guest Lecture on topic:-

Microbial interactions are crucial for a successful establishment and maintenance of a microbial population. These interactions occur by the environmental recognition followed by transference of molecular and genetic information that include many mechanisms and classes of molecules.

Classes of Microbial Interactions

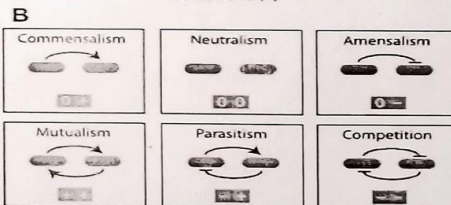

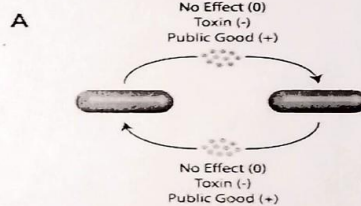

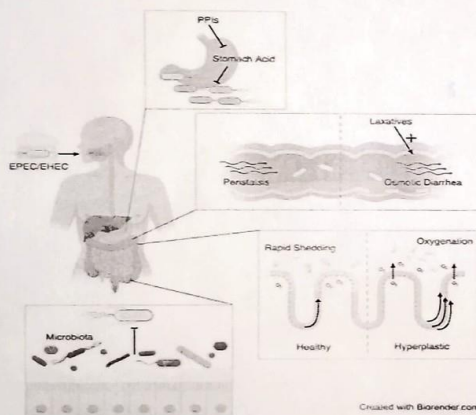

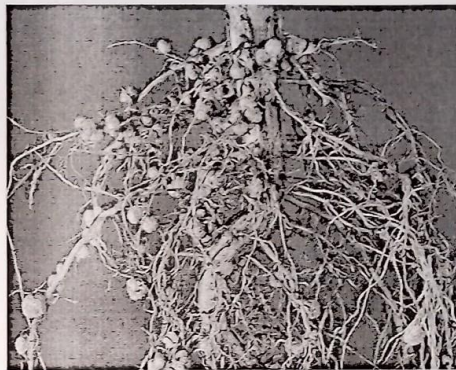

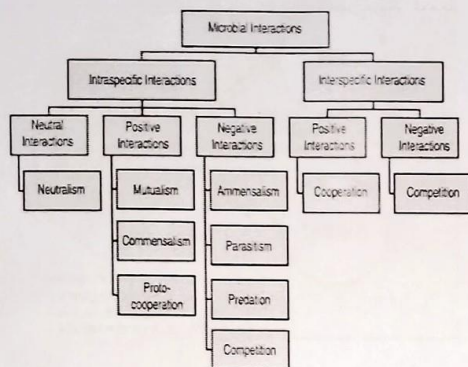

- Mutualism.
- Protocooperation (Synergism)
- Commensalism.
- Predation.
- Parasitism.
- Amensalism
- Competition.
- Bacteria-Fungi Interactions etc...

What is the benefit of microbial interaction?

K. L. S.

W. S. S.
HEAD
DEPT. OF MICROBIOLOGY
SGS ARTS COLLEGE
TIRUPATI-517501 (A.P.)

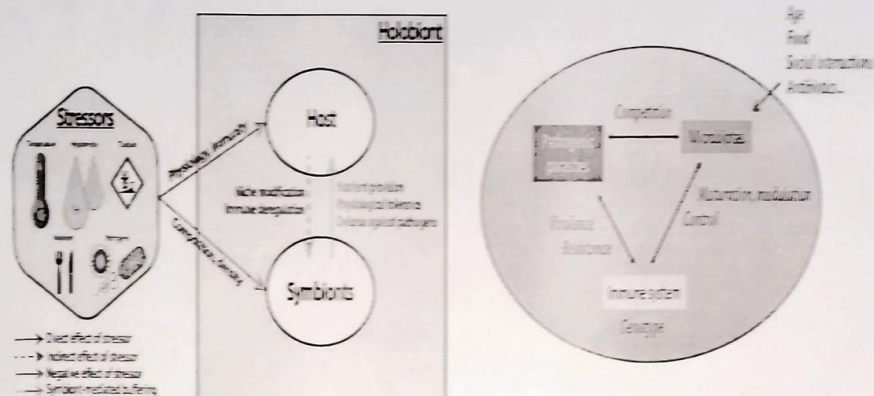

The microbial interactions are crucial for the successful establishment and maintenance of colonization and infection. Additionally, antimicrobial host defenses and environmental factors also play essential roles.

Respected Madam,

Subject: Acceptance of Guest Lecture – Request – Regarding.

I write to you because I would like to inform you of my intention to accept your invitation to me to be your guest speaker in your seminar about Microbial interactions . It is an honor to me to be given such invitation and I am very glad to accept it.

I am expecting to get an opportunity to interact with your students. I enjoy the atmosphere and activity going on in the seminar.

I hope I will be able to impart to your audience particularly the students with my knowledge about the subject and exceed your expectations.

Thank you very much and I am looking forward in seeing you soon.

Thankfully,

Yours faithfully,

P. ShivaRagini

FEED BACK :-

Students get knowledge from this Guest Lecture on topic:-

The scope of microbiology is his duties deliverance and involvement in day-to-day science. The development of microbiology in various fields such as medicine, pharmacy, clinical research, dairy industry agriculture, water industry, and Chemical Technology has been evaluated throughout these years. Thereby in today's science, the microbiologist can make their careers into the research as well as non-research fields of microbes that can level the scope of microbiology and the forecasted future.

There are various different branches of microbiology and these include the following:

Bacteriology- The study of bacteria.

Mycology -The study of fungi.

Phycology- The study of photosynthetic eukaryotes. (...

Protozoology - The study of protozoa (Single-celled eukaryotes)

The subjects of Microbiology which have lot of application and have importance to build a career in, are provided below:

Microbial Ecology.

Biochemistry.

Molecular Biology.

Cell Biology.

Enzyme technology.

Food Microbiology.

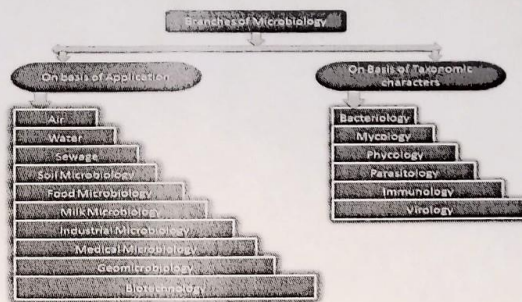

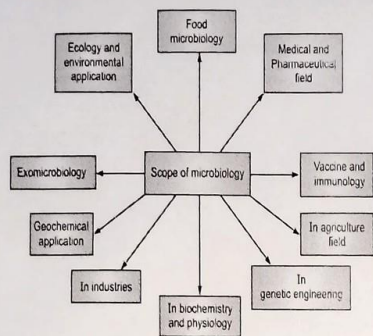

Virology.

Medical Bacteriology.
